

Attention Paid History

History is the study of the past, and it is a discipline that has been around for as long as there have been people. It is a way of understanding the world around us and the people who have lived in it. History is not just a collection of facts and dates, but a way of thinking about the world and the people who have lived in it.

History of the United States

The history of the United States is a story of a young nation that has grown into a powerful world superpower. It is a story of a people who have fought for freedom and justice, and who have built a nation that is the envy of the world. The history of the United States is a story of a people who have fought for freedom and justice, and who have built a nation that is the envy of the world.

History of the World

The history of the world is a story of a planet that has been inhabited by people for millions of years. It is a story of a people who have fought for freedom and justice, and who have built a nation that is the envy of the world. The history of the world is a story of a people who have fought for freedom and justice, and who have built a nation that is the envy of the world.

Attention Deer Hunters

In order to facilitate the provision of additional deer hunting opportunities, streamline some Wildlife Management Unit(WMU) boundaries, and accommodate public safety concerns, changes have been made to the boundaries of a number of WMUs in southern Ontario. These changes are outlined below and shown in limited detail on the map on the reverse. For more information, please contact the local district office of the Ministry of Natural Resources that manages the WMU.

If you have already applied to the antlerless deer validation tag draw for a WMU in which there has been a change that now makes your application incorrect, please contact the local district office.

Wildlife Management Unit 68 (Peterborough District, 705-755-2001) .

This unit has been subdivided into WMUs 68A and 68B. **Hunting deer with rifles will no longer be legal in WMU 68B.** The new boundary between 68A and 68B starts on the west side of the unit where the west boundary of Rawdon Twp in Hastings County meets the Crowe River, follows that boundary south to Hastings Cty Road 38, then east on Cty Rd 38 to Hwy 14. It then goes south on Hwy 14 to Stirling, east on Cty Rd 8 to Hwy 37, south to Roslin on Hwy 37, east to Chisholm's Mills on Cty Rd 7 and then east on Cty Rd 14 to just south of Marlbank on Cty Rd 32 which is the east boundary of the unit. **North of this line is now WMU 68A and south of it is WMU 68B.** All other boundaries remain unchanged.

Wildlife Management Units 78A, 78C, and 78E (Aurora District, 905-713-7400)

The most significant change in these units is that now **all of the Town of Uxbridge in the Region of Durham will be in WMU 78A and have a controlled shotgun/muzzle-loading season.** This means that the east boundary of WMU 78C is now the boundary between York Region and Durham Region. That part of Pickering that was formerly in WMU 78C has been added to WMU 78E. All other boundaries remain unchanged.

Wildlife Management Units 79A, 79B, 80A, 80B, 87A (Guelph District, 519-826-4955)

Changes to a number of small units have resulted in their consolidation into a **larger WMU 80.** WMU 80 now includes all the township of East Luther in Dufferin County, the townships of Arthur, Eramosa, Erin, Guelph, Maryborough, Nichol, Peel, Pilkington, West Garafraxa, and West Luther in Wellington County, and the townships of Wellesley, Wilmot and Woolwich in the Region of Waterloo.

WMUs 79A, 79B, 80A and 80B no longer exist and WMU 87A now includes only the cities of Cambridge, Kitchener and Waterloo in the Region of Waterloo.

Wildlife Management Units 87E and 88 (Guelph District, 519-826-4955)

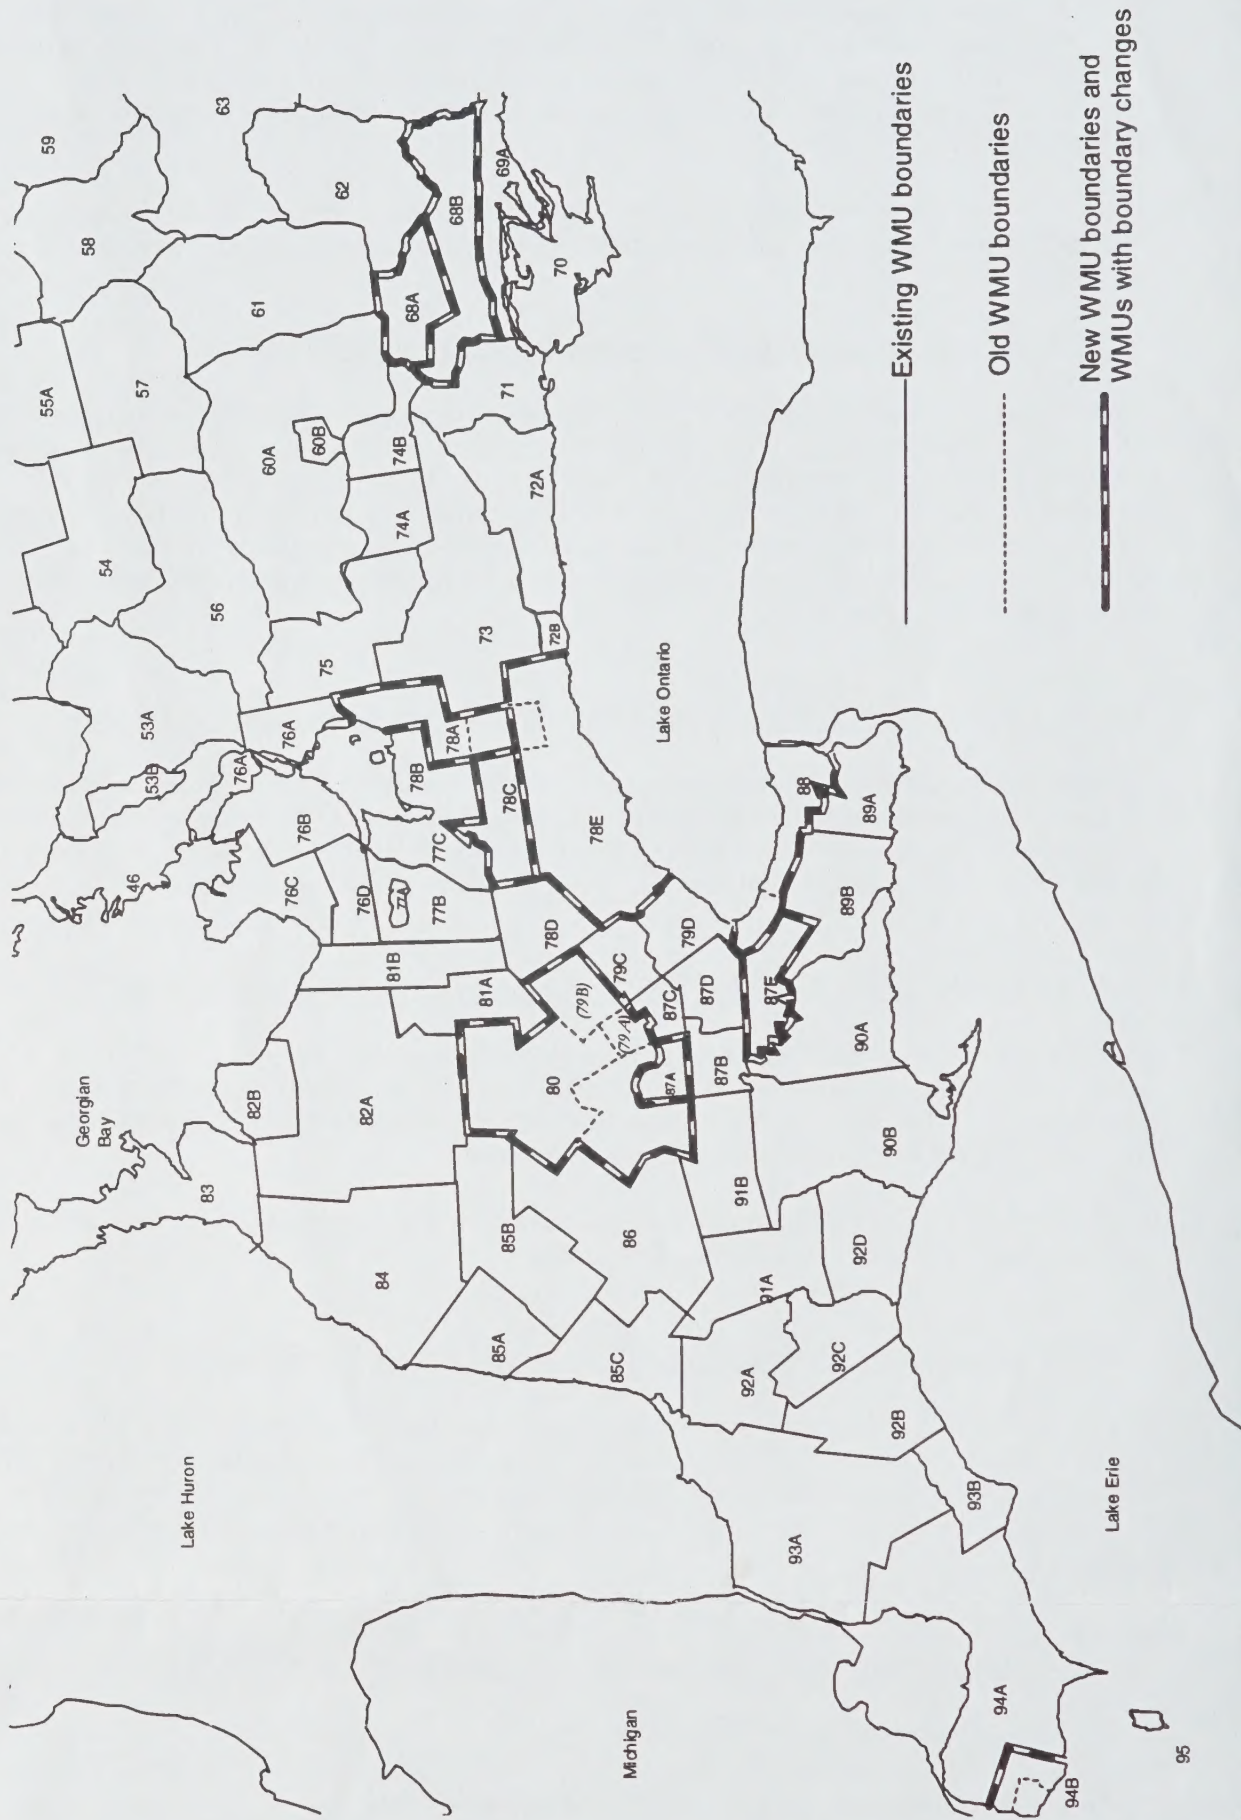

The change in these units removes the towns of Dundas and Stoney Creek and the city of Hamilton in the Region of Hamilton-Wentworth from WMU 87E and adds them to WMU 88. The remaining portion of **WMU 87E**, being the townships of Ancaster and Glanbrook in Hamilton-Wentworth, the township of Onondaga and that part of the township of Brantford north and east of the Grand River in Brant Cty, **will have a new controlled shotgun/muzzle-loading season.**

Wildlife Management Units 94A and 94B (Aylmer District, 519-773-9241)

WMU 94B has been expanded by removing the townships of Anderdon, Colchester North, and Colchester South in Essex County from WMU 94A and adding them to 94B. This means that **the bi-annual 2 day shotgun/muzzle-loading season will include 4 townships rather than just Malden.**

June 25, 1998

Changes to Wildlife Management Units (WMU) for 1998

Attention Deer Hunters

Many new deer hunting opportunities are being provided in 1998. The changes are included in the following tables. These replace the tables on pages 19, 20, 21 and 22 in the 1998-1999 Ontario Hunting Regulations Summary. Please continue to refer to the Summary for the rest of the necessary information on deer hunting.

Following the 1997 review of the controlled deer hunts, a further review in 1998 has resulted in these changes to deer hunting seasons, primarily in southcentral and eastern Ontario. The purpose is to provide more deer hunting opportunities while ensuring the sustainability of deer populations.

In addition to the season changes, there have been changes to the boundaries of some wildlife management units. Please refer to the accompanying map and text to identify whether these changes may affect you.

Dan Elliott
A/Manager, Wildlife Section, OMNR, Peterborough
